Begin your Rock Salt dining experience in the most exquisite way — with our chef's curated selection of premium seafood, elegantly served over ice. For several years now, our oysters have come from David Hervé, a third-generation oyster farmer from Marennes-Oléron whose family story began in 1939. His oysters have since travelled from the French Atlantic coast to some of the world's great dining rooms - including, of course, Rock Salt.

All oysters are served with lemon, Mignolette dressing, local style seafood sauce and Tabasco sauce

Here at Rock Salt we take our ingredients seriously, we have teamed up with a small group of Fishermen from Rawai sea gypsy village who bring all the best seafood that Rawai has to offer up two times per day.

They only use small day boats, which is a fantastic way to reduce overfishing, and have limited impact to the local area and only catching what they can sell accordingly and of course supporting the local community.
